

Useful Links to Games at Home

Below are a series of links to some great activities, courtesy of Chance to Shine and others:

1. *At home activity*

For pupils who are at home, there are some great skills challenges. The Cool Catcher challenge is easy to do and needs very little equipment. It supports numeracy learning whilst keeping active. Watch it here: <https://www.youtube.com/watch?v=1pUilVjuL0I>

Also look at Flat catching on the Cricket for Girls website
<https://www.youtube.com/watch?v=Idg4Qy5Eq28&feature=youtu.be>

For older children, there are also some gardens drills – look at Garden drills

2. *In school activity*

For those who still have pupils in school why not try to fit in a Chance to Shine session into your plan for the week. The Schools Portal has all the digital resources you need, with lesson plans, explanations videos and top tips from the pros. This week, try the Cool Catcher session, check out the session plans below and head to the portal for all the other resources to run the session:

[KS1](#)

[LKS2](#)

[UKS2](#)

[For KS3 try our first session of the programme on batting](#)

[Try the Cool Counter session for some active numeracy learning.](#)
